

## WHERE TO FIND OUT PRODUCTS AND SERVICES

### Injectables

- Please ask your doctor if you can use our injectables.
- If your doctor determines that it is safe for you to use, they will then lead you down the path to get access to our products.

### Oral Products

- Some of our products are available OTC at your local pharmacy to purchase
- Others will require a prescription from your doctor that can then be used at your local pharmacy.

### Others

- We have yet to roll out most of our services, so please stay tuned for more information.
- The services that we have rolled out can be found at your local hospital as they require supervision of a medical staff member to ensure that everything is safe and effective.

Disclaimer: Insurances have been slow to adopt our products under their plans, so please be aware of the additional out of pocket costs that you may incur in the short term. We are working directly with insurance companies to try and get mass coverage of our products by the end of 2025.

If you have any questions regarding where to find our products or services, please do not hesitate to contact us. Please visit our website to find contact information.
